

FRP-PITS

Product - Highlights

1

Lightweight! For easier transportation and air lifting. Easy installation in harsh conditions.

2

Strong and dry! 10mm thickness FRP (fibre-reinforced plastic), 25 years of proven experience. No condensate and water proof.

3

Quick! Pre-assembled pits to save your on-site working time, PN100 equipped.

4

Safe! According to the rules for hydraulic, electricity and safety operations.

Model	Z150 SL
Outside diameter	100 cm
Clear height	150 cm
A	155 cm
B	115 cm
C	120 cm
Weight, FRP-pit only	139 kg
Lights	75 W
Pit heating	100 W

Z150 SL – FRP-Pit Z150 – basic equipment for lances.

Inclusive ladder, heating, hatch, water and air intake, earthing strap and drain and 2" water ball valve PN 100 Camlock 2". Available summer lid.

Model	Z150 SE
Outside diameter	100 cm
Clear height	150 cm
A	155 cm
B	115 cm
C	120 cm
Weight, FRP-pit only	139 kg
Lights	75 W
Pit heating	100 W

Z150 SE – FRP Pit Z150 – basic equipment for mobile snow guns.

Inclusive ladder, heating, hatch, water and air intake, earthing strap and drain and 2" water ball valve PN 100 Camlock 2". Available summer lid.

Model	Z160
Outside diameter	130 cm
Clear height	160 cm
A	180 cm
B	155 cm
C	150 cm
Weight, FRP-pit only	231 kg
Lights	75 W
Pit heating	100 W

Z160 – FRP Pit Z160 – basic equipment for all lances and snow guns.

Inclusive ladder, heating, hatch, water and air intake, earthing strap and drain and 2" water ball valve PN 100 Camlock 2". Available summer lid.

Model	Z200
Outside diameter	130 cm
Clear height	200 cm
A	220 cm
B	155 cm
C	150 cm
Weight, FRP-pit only	239 kg
Lights	75 W
Pit heating	100 W

Z200 – FRP Pit Z200 – basic equipment for snow guns on tower.

Inclusive ladder, heating, hatch, water and air intake, earthing strap and drain and 2" water ball valve PN 100 Camlock 2". Available summer lid.
